

Mask Expiry Date Update

Dear Valued Customer,

Since the launch of our FFP masks, Wenzhou Jiada Technology has continually developed and enhanced these products. We are pleased to confirm that, based on the results of accelerated shelf-life studies, the expiration date of our Jada branded FFP masks has been extended by an additional 24 months. This extension brings the total shelf life to 60 months from the date of manufacturing, compared to the original expiry of 36 months.

This letter serves to confirm that the Jada branded FFP masks you currently own may now display an expiry date that is longer than what is indicated on the product label.

Please refer to Attachment 1, which lists the product batches confirmed to have this extended shelf life. The attachment details the lot number, the currently labeled expiry date, and the new expiry date for each relevant product.

Feel free to disseminate this information to your end users who may have purchased any of the products listed in Attachment 1.

Please note that Wenzhou Jiada Technology will not be re-working or re-labeling the products, nor will we assume any costs, expenses, or liabilities arising from this communication, including any expenses related to local labeling requirements. If you become aware of any such requirements due to this shelf-life extension, please contact us in advance so that we can ensure compliance with our guidelines.

If you have any further questions, please contact Wenzhou Jiada Technology Technical Services at:
